

Where Your Heart Is

Bob Kauflin, Ed Nalle

Where your heart is, there your treasure will be
Where your heart is, the whole world will see
Where your heart is, there's one thing you should
know
Your treasure always shows where your heart is

There's a future you can't wait to see
You sit and wonder how it's gonna be
What awaits you no one knows for sure
But you will find what you've been looking for

The foolish man, he seems to never tire
Of runnin; after what his heart desires
There will be choices that you make every day
Some will last and some will fade away

You're not a fool to give away
All the things that you can't use
To gain a treasure you can never lose
